

# Develop Your Child's Creative Thinking Skills

A hands-on program that nurtures creativity, problem-solving, and confidence through play. Turn weekends into quality family time - get everything delivered monthly to your home for 6 months.

## Three Steps to Creative Growth

Research-based framework designed by educators

### DISCOVER

#### Explore & Wonder

Explore new themes, ideas, and materials each month. Spark curiosity and build foundational understanding.

### MAKE

#### Create & Experiment

Use tools and materials to create, build, and experiment. Learn through doing, with mistakes as part of the journey.

### PLAY

#### Connect & Imagine

Extend learning through imaginative play, storytelling, and role-play. Make connections and see possibilities.

## Six Progressive Themes - Something New Every Month

### Phase 1: Building Foundations (Months 1-3)

### RESTAURANT

#### Role Play & Teamwork

Pizza • Spaghetti • Veggies • Chicken

### SPACE

#### Storytelling & Innovation

Saucer • Aliens • Planet

### PETS

#### Role Play & Teamwork

Cats • Hamster • Bird • Terrapin

### Phase 2: Expanding Creativity (Months 4-6)

### BEACH

#### Self-Expression & Design

Cap • Flip-flops • Ice Cream • Lollies

### DINOSAUR

#### Scientific Curiosity

Nest • Eggs • Clay Dinos • Habitat

### PIRATE

#### Adventure & Storytelling

Pirate • Ship • Chest • Island

Each month builds on the last, developing your child's creative confidence and problem-solving skills.

## Everything You Need. No Prep. No Waste.

### ✓ 4 Hands-On Projects

Designed to develop creativity and confidence through open-ended making

### ✓ Pre-Portioned Materials

Everything for every project. Just open and create

### ✓ Step-by-Step Instructions

Visual guides enabling independent work or minimal support

### ✓ Premium Tool Kit (Month 1)

Over 20 safe, high-quality tools. Reused throughout 6 months

### ✓ Parent Guides

Monthly roadmap with theme overview and learning goals

### ✓ Stickers & Certificates

Celebrate progress and keep kids motivated

## Four Pillars of Creative Growth

Building the foundation for creative thinking

### Mastering Tools

Pivotal First Step

Children explore age-appropriate tools, learning to use them safely, creatively, and with growing precision.

### Developing Core Skills

Essential Foundation

Strengthen fine motor control, emotional awareness, and early communication through purposeful creative play.

### Solving Problems

Think Outside the Box

Experimenting, making decisions, and adapting on the fly. Kids approach challenges with confidence and curiosity.

### Creating New Ideas

Make New Connections

Stretch imagination through storytelling, role-play, and open-ended exploration. Transform ideas into reality.

## Gain Skills That Last a Lifetime

### Creative Thinking

See problems as opportunities and generate original ideas

### Problem-Solving

Develop resilience and confidence in finding solutions

### Fine Motor Skills

Strengthen coordination through hands-on creating

### Parent Connection

Quality time together, building memories

### Confidence

Pride in creating and expressing themselves

### Independence

Ability to complete projects on their own

### What Parents Are Saying

"My son can't wait to open the box each month. It's become our favorite weekend activity together. He's learning without even realizing it."

~ Diana, Mom of 5-year-old
